Title: TENT VENTILATION STRUCTURE

Abstract: A tent (100) ventilation structure includes a vent window (153) in proximity to a tent floor, and an awning (157) coupled to a top edge of the vent window (153) configured to extend outward from the tent (100) to a position above the base of the vent window (153). Advantages of the invention include the ability to ventilate the tent (100) at locations that improve air circulation and the campers' comfort and enjoyment.
For two-letter codes and other abbreviations, refer to the "Guidance Notes on Codex and Abbreviations" appearing at the beginning of each regular issue of the PCT Gazette.
### INTERNATIONAL SEARCH REPORT

**International application No.**

**PCT/US04/40711**

---

**A. CLASSIFICATION OF SUBJECT MATTER**

IPC(7) : E04H 15/14, 15/16

US CL : 135/93, 94

According to International Patent Classification (IPC) or to both national classification and IPC

---

**B. FIELDS SEARCHED**

Minimum documentation searched (classification system followed by classification symbols): 

U.S.: 135/91, 93, 94, 117

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

---

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

Please See Continuation Sheet

---

**C. DOCUMENTS CONSIDERED TO BE RELEVANT**

□ Further documents are listed in the continuation of Box C. □ See patent family annex.

* Special categories of cited documents:
  - **A** document defining the general state of the art which is not considered to be of particular relevance
  - **E** earlier application or patent published on or after the international filing date
  - **L** document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
  - **O** document referring to an oral disclosure, use, exhibition or other means
  - **P** document published prior to the international filing date but later than the priority date claimed

**I** later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

**X** document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

**Y** document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

**&** document member of the same patent family
