The present invention relates to a method for mounting a suspended ceiling (1). The method comprises providing a supporting structure (10, 11) and ceiling tiles (2), installing said ceiling tiles (2) in the supporting structure (10, 11), and arranging a waste portion (2b) removed from a ceiling tile (2a) on top of the ceiling tiles (2) of said suspended ceiling (1). The present invention further relates to a suspended ceiling (1).
A. CLASSIFICATION OF SUBJECT MATTER
INV. E04B1/82 E04B9/00 E04B9/22
ADD.

According to International Patent Classification (IPC) and/or both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)
E04B

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

EPO-Internal, WPI Data

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Further documents are listed in the continuation of Box C. See patent family annex.

* Special categories of cited documents:

  *A* document defining the general state of the art which is not considered to be of particular relevance
  *E* earlier publication or patent but published on or after the international filing date
  *L* later document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
  *O* document referring to an oral disclosure, use, exhibition or other means
  *P* document published prior to the international filing date but later than the priority date claimed

  *I* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
  *X* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
  *Y* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
  *S* document member of the same patent family

Date of the actual completion of the international search: 15 March 2013
Date of mailing of the international search report: 26/03/2013
